

Order / Enquiry Form for new or replacement propeller

Please remember that any incorrect information you supply is likely to result in an incorrect propeller being specified, for which we cannot be responsible. Remember to advise us if you have a saildrive.

Any size we advise is an opinion only and subject to trials and developments at the purchasers cost.

Please advise any restrictions to good water flow around the propeller, i.e. behind a wide keel, in an aperture, shaft to one side of keel, etc. and any factors limiting diameter, by specifying dimension from centre line of the propeller shaft at the point where the propeller fits, to the underside of the hull, or closest point of the aperture.

For folding propellers, please advise distance available astern from large end of taper. When rudder is fitted close to propeller, or in an aperture.

Name: _____

Telephone: _____

Address: _____

Fax: _____

E-mail: _____

Type of propeller required: _____

Date: _____

Sailboat

Displacement

Halfplaning

Planing

Waterline length _____
